AUTOMATIC DOSING SYSTEM

# OVERVIEW

## WHO WE ARE

Leading developer and manufacturer of **automatic dosing systems** for both powder and **liquid ingredients** for the cosmetics industry.

Color Service systems **automate and streamline manual weighing**, reduce waste, and enhance accuracy, safety and traceability.

Every Color Service system is engineered to ensure **precise dosing, hygiene, compliance and repeatable results**.

**SUSTAINABILITY**

# ICON

## POWDERS AUTOMATIC DOSING SYSTEM

Quick specs  
capacity

UP TO **60**

Batches / hour

Accuracy  
of dosing

UP TO **0.01** gr

High precision /  
dedicated scale

Dimension  
of machine

**2X8X3**

Meters for  
30 products

## ALL THE FEATURES +

The **ICON automatic dosing system** is designed for production environments where high weighing frequency, precision, and accuracy are critical. Thanks to its vacuum-assisted loading, ICON is ideal for dust free handling of power dyes and chemicals. Its **modular and scalable** architecture allows the system to expand with the customer's production needs.

## CERTIFICATION

## OPTIONS

- AUTOMATIC BAG SEALING
- MANUAL WEIGHING COMBINED WITH ASRS

## DOSING RANGE

0,1 GR TO 25 KG PER CYCLE

## MATERIALS SUPPORTED

POWDERS, GRANULES, DYES

## SCALABILITY

SUPPORTS MULTIPLE BINS AND DOSING HEADS

## TRANSFER METHOD

SKIN CARE, MAKE-UP, HAIR COLORATION

## FOOTPRINT

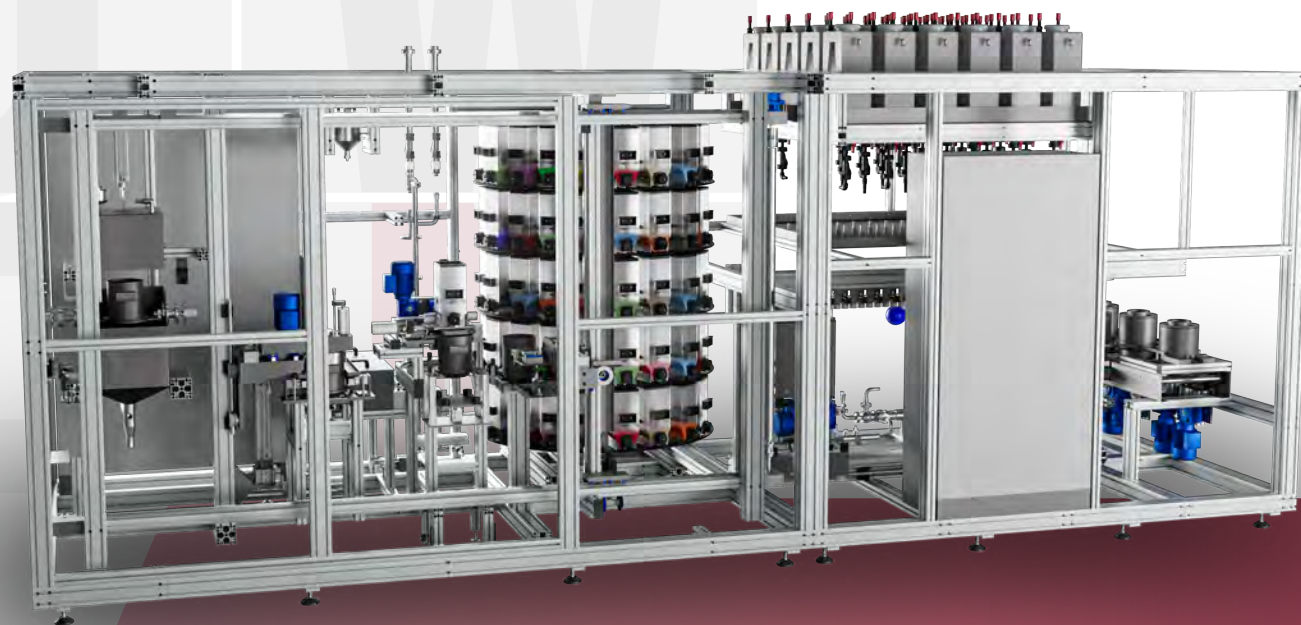

CONFIGURABLE (SINGLE OR MULTI SCALE CONFIGURATIONS)

## AUTOMATION

COMPATIBLE WITH PLC, SCADA, MES PLATFORMS, ERP CONNECTION

# INSTANT

POWDERS AND LIQUIDS  
AUTOMATIC DOSING SYSTEM  
FOR LABORATORY

Quick specs  
capacity

UP TO **100**

Batches / hour

Accuracy  
of dosing

UP TO **0.001** gr

High precision /  
dedicated scale

Dimension  
of machine

**2X4X4**

Meters for  
100 products

The **INSTANT** is a high-performance **pilot and laboratory system** designed for the cosmetics industry, combining extreme precision, cleanliness, and safety. Suitable for both powders and liquids, it ensures fully traceable operations and repeatable results, making it ideal for formulation development, scale-up trials, and small-batch production. Built to the highest industrial standards, INSTANT offers automated dosing minimizing handling risks and guaranteeing contamination-free processing.

## ALL THE FEATURES +

### CERTIFICATION

### OPTIONS

- MIXING OF FINAL BATCH

### DOSING RANGE

25 MG TO 1 KG

### MATERIALS SUPPORTED

POWDERS, DYES, LIQUIDS, CHEMICALS

### STORAGE

1,2,4,8 LITERS CAPACITY IN STAINLESS STEEL

### FOOTPRINT

CONFIGURABLE (SINGLE OR MULTI CONFIGURATIONS)

# GRAVITAS

LIQUIDS AUTOMATIC DOSING SYSTEM

Quick specs  
capacity

UP TO **60**

Batches / hour

Accuracy  
of dosing

UP TO **0.01** gr

High precision /  
dedicated scale

Dimension  
of machine

**2X10X4**

Meters for  
36 products

## ALL THE FEATURES +

The **GRAVITAS** is built for dosing a variety of liquids, solvents, adhesives, and reactive agents with **absolute accuracy**. Featuring closed-loop feedback, viscosity monitoring, and optional heated lines, it is ideal for demanding environments where flow consistency and cleanliness are critical.

## CERTIFICATION

## OPTIONS

- STORAGE TANKS AND RECIRCULATION

## DOSING RANGE

0,1 KG TO 100 KG

## MATERIALS SUPPORTED

OILS, ADDITIVES, SOLVENTS, BASE LIQUIDS, CHEMICALS

## INTERFACE

PLC/TOUCHSCREEN WITH LIVE WEIGHT FEEDBACK, ERP CONNECTION

## STORAGE

DIFFERENT CAPACITY ACCORDING TO CONSUMPTION
